## Day 2 – Wednesday June 30<sup>th</sup>

The day is divided into 2 parts.

1. *Individual company meetings*: The companies participating will be encouraged in Day 1 to set up face-to-face meetings with their counterparts (i.e. ICT companies who could work jointly with them on future projects, product development, etc.). During day 2, the companies can discuss in a more business-friendly environment about their business cooperation needs and plans. It would be entirely up to the companies to initiate the second day of the meeting, and they would be on their own.

2. *Project meeting*: This would be a project meeting between partners. This would give us the opportunity to meet and discuss project issues, plan future activities, and progress. The idea would be to have the meeting from 09.00- 14.00 at Varaždin County. This could make it so that the meeting planned for the summer is done this day, and not needed in summer, as in the original project schedule.
